What can you do with a French Major?

Studying French language, literature and culture helps us grasp the endless and often debatable scope of human diversity. We improve our cognitive and critical thinking skills, we sharpen our communication skills, and we increase the number of doors that open to us for graduate study and careers.

What are the benefits of a French Major?

- Wide range of French courses
- Academic and Career Advising
- Honors Courses
- Placement Options
- Professional Development
- Study Abroad Opportunities
- Internship Possibilities
- La Maison Française

What careers are open to me?

Our graduates in French move on to great careers in all areas, not just French. Our Department continues to foster solid connections with our alumni who share with us their own trajectories from studying French as undergrads to landing careers in finance, nonprofit management, entrepreneurship, consulting, retail, sales & marketing and higher education. Many of our alumni welcome the idea of connecting with our undergraduates and sharing their post-college experiences. *La question importante... Is French on your CV ?*
